

IMMIGRATION BILL PASSED BY SENATE

Adjourned at 5 p. m. to noon Monday.

Washington, Jan. 2.—The immigration bill containing the restrictive literacy test for admission of aliens, which has been the obstacle in immigration reform legislation for the greater part of two national administrations passed the senate today by a vote of 50 to 7. The overwhelming majority was recorded despite the fact that President Wilson had indicated he would veto the measure, as did former President Taft if it should come to him with the educational test included.

The vote in the senate indicated that the bill could be re-passed by more than the required two thirds majority should the president reject the measure.
Senators who voted against the bill were: Brandegee, McCumber, Martine, O'Gorman, Ransdell, Reed and Walsh.
The bill passed the house Feb. 4th, last, by a vote of 241 to 126.

Although the senate amended the literacy test in several particulars the literacy test was unaltered save for an additional exemption to Belgium refugees which was adopted today after prolonged debate.

House leaders possibly will ask for a conference on senate amendments Monday and the bill is expected to reach the president by the middle of the week.

Among senate amendments which house leaders have said would probably be accepted is one to exclude from the United States all persons of the African race or of negro blood. Another strengthens the phraseology of the prohibition of polygamists.

Closing hours of the debate today were devoted to an amendment by Senator Lodge to exempt Belgian farmers from the literacy test and from the provisions which prohibit Americans from soliciting or inducing immigration.

Senator Poinsett declared other nations would protest under the favored nations' clause of their treaties with the United States.

Practically as passed by House.
The literacy test as finally approved by the senate is practically as it passed the house. All amendments to enlarge the exemptions to admit persons fleeing from political or racial as well as religious persecution have been rejected. The section follows:

"That after four months from the approval of this act in addition to the aliens who are by law now excluded from admission into the United States the following persons shall also be excluded from admission thereto to-wit:

"All aliens over 16 years of age, physically capable of reading, who cannot read the English language or some other language or dialect, including Hebrew or Yiddish;

"Provided that any admissible alien or any alien heretofore or hereafter legally admitted or any citizen of the United States may bring in or send for his father or grandfather over 55 years of age, his wife, his mother, his grandmother or his uncles or widowed daughter, if otherwise admissible whether such relative can read or not, such relative shall be permitted to enter.

"That for the purpose of ascertaining whether aliens can read the immigrant inspectors shall be furnished slips, of uniform size, prepared under the direction of the secretary of labor, each containing not less than thirty nor more than forty words in ordinary use, printed in plainly legible type in some one of the various languages and dialects of immigrants. Each alien may designate the particular language or dialect in which he desires the examination to be made and shall be required to read the words printed on the slip in such language or dialect.

CALLS FOR SOLDIERS HAVE DEPOPULATED U. S. FORTS

The Twelve Forts in Central Department Average Three Officers and Fifty Troopers on Duty.

Chicago, Jan. 2.—Calls for United States soldiers on the Mexican border, Colorado, Arkansas and elsewhere during the last two years have depopulated the twelve forts in the central department to a corporal's guard, according to a report today by Col. D. A. Frederick at departmental headquarters here.

In January, 1913, the number of troops in the department was 19,529 with 1,197 officers. This year the total is 708 troops with 49 officers, just enough to guard the barracks and stables.

Of the 49 officers, 12 are in Chicago. The remainder are distributed in the Sheridan, Omaha, Snelling, Wayne, Benjamin Harrison, Crook, D. A. Russell, Des Moines, Leavenworth, McKenzle, Meade and Riley forts. The forts average three officers and fifty troopers.

NEW YORK CITY'S DEATH RATE LOWEST EVER ATTAINED

NEW YORK, Jan. 2.—New York's death rate for the year just closed was 13.4 per 1,000 population, according to the figures made public today by the city's department of health. This, the department's report states, marks the lowest death rate ever attained in this city and has "definitely placed this city among the most healthful of the largest cities of the world."

The number of deaths during 1914 was 74,803. The year witnessed the greatest number of births in the history of the municipality, there having been 149,647 children born, an increase of 5,513 over 1913.

Lowest Death Rate in Boston.
Boston, Jan. 2.—The lowest death rate ever recorded for this city was reported today by the board of health. During the past year 11,803 persons died in Boston, a death rate of 15.8 as compared with 16.1 last year. Not a child was born blind in this city last year.

\$100,000 WORTH OF NORWEGIAN STEAMER'S CARGO DETAINED

HALIFAX, N. S., Jan. 2.—With approximately \$100,000 worth of her cargo detained the Norwegian Steamer Sandefjord brought to this port on the night of November 30th, for an examination sailed today for her original destination, Copenhagen.

Acting on instructions which the Ottawa authorities received from the Imperial government, the customs officials here kept 150 cases of rubber and a few hundred barrels of sausage casing. The cases of rubber bore in black letters, "Germany." Beans and coffee cake marked for Turkey and Germany were reloaded on the steamer.

SPECIAL CEREMONIES WILL MARK SAILING OF KANSAS SHIP

NEW YORK, Jan. 2.—Special ceremonies will mark the sailing from here next Tuesday of the Steamer Hannah Bearing the first ship load of Kansas for the relief of the starving Belgians. The ship's cargo, consisting approximately of 6,500,000 pounds of flour, represents five weeks of relief work in Kansas under the chairmanship of former Governor W. E. Stubbs, the commission for relief in Belgium announced tonight.

Former Congressman Charles F. Scott of Iowa, Kans., arrived here today on his way to Belgium where he will oversee the distribution of the Kansas contribution.

WILL INVESTIGATE KILLING OF CATTLE

ALBANY, N. Y., Jan. 2.—Governor Whitman's promised investigation of the expenditure in all state departments began today with the agricultural division. The inquiry will include an investigation of the killing of condemned cattle. There has been scandal in connection with the condemnation of diseased cattle for which the state is called upon to reimburse owners, the comptroller's statement declared.

Claims against the state on this score now aggregate about \$500,000.

ARE OF DOUBTFUL VALUE.

ST. LOUIS, Mo., Jan. 2.—That some of the assets listed by the Bankers Trust company of St. Louis when it went into the hands of a receiver, are of doubtful value was stated today by Leon W. Quick, receiver, in his report filed with the circuit court. The Bankers trust company owned stock in small town banks in Missouri and Kansas.

BOMB MAKER KILLED.

PARIS, Jan. 2.—(7 p. m.)—A despatch to the Havas Agency from Lisbon says that two men were preparing bombs in a shed in the Estrella quarter of the Portuguese Capital today when one of the bombs exploded. SEVERAL DEVELOPMENTS IN SHIPPING SITUATION

GREAT BRITAIN ISSUES CONTRADICTIONARY ORDER ON CONTRABAND GOODS

In November Naval Stores, including Rosin, Camphor and Turpentine Were Listed as Non-Contraband, a Week Ago an Order Listing These Goods as Absolute Contraband Was Issued.

Washington, Jan. 3.—While no word came from Ambassador Page today as to the character of the reply which Great Britain will make to the American note of protest concerning interference with American trade, there were several developments in the general shipping situation.

The United States asked Great Britain for information as to how the latter's statement, made early in November, that naval stores, including rosin, camphor and turpentine would be regarded as non-contraband, will be reconciled in actual practice with the notification from the British foreign office of a week ago saying these products now are absolute contraband. Information is sought as to how cargoes now en route are to be affected and whether resins products are included in the classification.

The Italian ambassador informed the state department that while statistics would make it appear that extraordinary amounts of copper shipped from the United States to Italy might be for unneutral purposes, the fact of the matter was that as Germany needed her own copper, Italy could no longer import from the countries immediately to the north of her and must seek the metal in the American markets.

Much gratification was manifested at the state department because of the release by Great Britain of the American oil tank steamships Tiflis and Narragansett and the freighter George R. Hawley which had been held at Falmouth since Nov. 30th. The case of the Brindilla originally detained at Halifax and re-arrested on her return journey from Egypt and taken to the French port is looked upon as likely to produce complications.

Should the question of change of registry be raised, a precedent may be set, for while Great Britain has recognized the transfers when on a bona fide nature, the attitude of France has never been explicitly declared.

The communication which the senate sent concerning naval stores is said to be the first protest on specific articles listed by Great Britain as contraband. In the American note of protest it was stated that while the United States objected to some of the classifications made, the discussion of the subject would be reserved until another time.

One Reason for American Note.

The protest concerning naval stores was communicated today to the governors and senators of several southern states. Rosin and turpentine had been intended for ballast with cotton cargoes and the British are on record as stating that cargoes so made up would not be regarded as contraband.

The state department had no sooner sent notification to this effect to shippers than the British foreign office published its new list. Although this phase of the situation was not specifically mentioned in the recent American note it was generally understood to have been a contributory reason for the dispatch of the document.

To prevent the recurrence of charges that American shippers conceal copper and contraband articles in cotton and other non-contraband cargoes, the following formal notice, supplementary to President Wilson's warning of last week was issued today by Secretary Redfield of the department of commerce.

Supplementary Notice Issued.

"The attention of shippers of goods to neutral countries is called to the importance of having manifests complete and accurate. It is essential also to avoid mixing contraband goods in cargoes otherwise not contraband. It is alleged that some American manifests have omitted some certain contraband goods, also that efforts have been made to conceal contraband articles or to alter their appearance so that they will be allowed to pass.

"A single case of the kind is enough to embarrass all American commerce to neutral countries by throwing doubt on the correctness of our manifests and on the neutral nature of our cargoes, thus possibly involving delay through examining cargoes that otherwise would be avoided."

MINE INSPECTOR KILLED.

VANCOUVER, B. C., Jan. 2.—An explosion occurred today in a mine at Coal Creek near Fernie, B. C., in the Crow's Nest pass district. The workmen had sufficient notice of trouble and it is believed that all got out safely. Mine Inspector Evans entered the workings with rescue apparatus and was overcome by gas. He was unconscious when rescued and died.

War News Summarized

Five hundred and seventy nine men perished by the sinking of the British battleship Formidable in the English channel on New Year's day, according to the latest estimates. Of the crew of 780 men, 201 were saved, a cutter, with fifty living aboard having reached land since the first casualty list was compiled.

Many of the survivors of the Formidable were landed at Brixham, Devon, others at Lyme-Regis, Dorset, which indicates that the disaster occurred at the western end of the English channel, although the admiralty has not given the location; nor has it made a definite statement with reference to the real cause.

The fighting in Belgium and Northern France has come to a halt, to judge from the official reports, so far as spectacular operations are concerned.

In Russian Poland and Galicia there is no actual change in the situation as it has been for several days past. The Ottoman troops in the Caucasus have crossed the Russian frontier at three points and soon will be under command of Field Marshal Baron Von der Goltz, the German officer who spent many years in Turkey building up the Ottoman army and who recently was sent to Constantinople to aid the Sultan.

In an Orange book issued at the instance of the Russian minister of foreign affairs at Petrograd, it is charged that the independence of the Ottoman empire "vanished definitely from the moment that the German cruisers Goeben and Breslau took refuge in the Dardanelles" and that the German ships under German command made "an attack on the peaceful shores of an empire which was maintaining perfect neighborly relations with the Turks."

Count Tisza, the Hungarian premier according to a Berlin despatch has affirmed that mutual confidence, love and respect exist between Austria-Hungary and Germany. Fearing an attempt at a landing by the Germans on the east coast of England, Yorkshire is enrolling a corps of civic guards and volunteers, with headquarters at Hull, for self-protection.

EXPECT MAYTORENA'S O.K. TO PEACE TERMS

BORDER PEACE TERMS HAVE PROVED BY VILLA AND CARRANZA

Delay is Due to Maytorena's Contentment That He Has Not Been Authorized to Make Terms by His Chief—Other News From Mexico.

NACO, ARIZ., Jan. 2.—Agreements of General Maytorena with the Villa leader, to the border peace terms approved by Villa and Carranza, is expected to be obtained soon through the influence of either Villa or Provisional President Gutierrez.

Brigadier General Hugh L. Scott, the United States army chief of staff, who got the oral approval of the general terms from both Maytorena and General Hill, the Carranza chief entrenched in Naco, Sonora, had hoped to close the matter last Sunday. The delay is said to be due to Maytorena's contention that he has not been authorized to make terms by his chief.

Opposition has developed to the removal of Hill's army to Agua Prieta. American interests south of Agua Prieta object their property will be jeopardized with Hill on the north and Maytorena blockading the port on the south, as he is reported to plan. They declare that as Cananea is now inactive because of Maytorena's siege of Naco, no further harm can be done if he remains there.

Difficulties Have Arisen.
Washington, Jan. 2.—Difficulties have arisen in the negotiations of Brig. Gen. Scott, chief of staff of the United States army, between Generals Maytorena and Hill of the Gutierrez and Carranza factions, respectively, for the designation of Naco, Sonora, as a neutral town to avoid firing into American territory.

Acting Secretary Lansing of the state department conferred with President Wilson and later with Acting Secretary Breckinridge of the war department who despatched further suggestions to General Scott. Enrique C. Lorente, Washington representative of Gutierrez also talked at length with Mr. Breckinridge.

Mr. Lorente and high officials said they were confident an adjustment would be reached without requiring decisive action by the batteries of artillery recently posted across the line from Naco.

The following statement explanatory of the situation was issued by Secretary Tamm after a conference with the president:

"There is a hitch about the signing of the agreement between Maytorena and Hill and this government is attempting to adjust the difficulties."

"The government has not been informed exactly what the differences are but is trying to ascertain them."

GERMANS FURNISHED WITH U. S. PASSPORTS

ALLEGED CONSPIRACY DISCOVERED BY DEPARTMENT OF JUSTICE

Many German Officers and Reservists Are Believed to Have Fraudulently Obtained American Passports to Enable Them to Return Home Without Molestation From Enemies.

New York, Jan. 2.—An alleged conspiracy to furnish German army officers and reservists with American passports, fraudulently obtained to enable them to return to Germany from this country without danger of molestation by French or English authorities was discovered today by the department of justice.

The disclosure came with the arrest of Carl Ruroede, a former agent for the North German-Lloyd steamship line and with the removal from the outward bound Steamer Bergsford of a German army officer and three German reservists. All of them were charged with conspiracy to defraud the United States government through the use of American passports.

The four soldiers were taken off the steamer which was bound for Bergen, Norway, just as she was passing quarantine and brought back to New York on a revenue cutter. All four bore photographic passports issued by the state department to Americans and alleged to have been furnished them by Ruroede. Other arrests are expected.

Ruroede said tonight, according to agents of the department of justice who questioned him, that whatever he had done had been on his own initiative and was inspired by patriotic motives. He was held in \$20,000 bail which he furnished. With him was arrested John Aucher, his alleged associate, who was also held in \$20,000 bail and Ruroede's 17 year old son who was released on his own recognizance.

The German army officer, Lieut. Arthur Wilhelm Sachse, was paroled on his honor "as an officer and a gentleman," not to leave New York City during the pendency of the present proceedings. The three reservists, Walter Muller, August Meyer and Herman Wegener, who came here from Chile, were held in \$5,000 bail each.

There were detained also under \$500 bail each, four others as material witnesses, two with American and two with German names.

Result of Long Investigation.
The arrests were the culmination, it was said at the department of justice here tonight, of an investigation which has been in progress ever since the arrest in England of Carl Lody, who was subsequently executed in the tower of London, as a German spy.

Lody has a passport issued to an American and it became known to the department of justice that other American passports were also in the hands of German citizens. This discovery was of great concern to the state department as it was feared that Americans holding perfectly good passports would be open to suspicion and possible peril of their lives in the countries belligerent to Germany.

Ruroede has been under surveillance by secret agents of the department of justice for about six weeks. He left his employment with the firm of Oelrichs & Co., agents for the North German-Lloyd line, and established an office in the downtown district. The detectives learned, it was said, that he was in communication with German reservists in all parts of the country, while he received many of them every day at his office.

Attorney Arrested in Mo. Airy.
Philadelphia, Jan. 2.—Local representatives of the department of justice tonight arrested Morris Deitch, said to be an attorney of New York, on a charge growing out of alleged issuing of false passports in New York.

Deitch was arrested at the home of his father-in-law in Mount Airy, Philadelphia, whose name the federal officers would not make public, but who, they said, is wealthy.

If Deitch waives a hearing, the federal officers said, he will be taken to New York probably tomorrow.

U. S. Passports More Desirable.
Large numbers of them were furnished by Ruroede with Swiss and Rumanian passports, it is alleged, but American passports were considered far more desirable, if they could be secured. To obtain these, it is charged, Ruroede employed naturalized Germans to apply for passports, paying them from \$25 to \$50 a piece for their services, if necessary. Once certified by the clerk of the United States district court the passports were sent to Washington for signature by Secretary Bryan and the seal of the state department and on being returned were given to the reservists.

The passports found on the four Germans arrested today each bore the photograph of their bearer stamped with the state department's seal.

Mr. Deitch has been active in Democratic politics and ran for county register on the Tammany ticket at the last city election. He will be brought to New York, it was announced.

POPE IS WORKING HARD TO REDUCE SUFFERING

May Be Able to Arrange for an Exchange of Prisoners Who are Incapable of Further Fighting.

Rome, Jan. 2.—(9:20 p. m.)—Pope Benedict continues to work indefatigably in his efforts to reduce the sufferings caused by the war. It is asserted in Vatican circles that he has received cordial answers from both Emperor William and King George promising their assistance in arranging for an exchange of prisoners who are incapable of further fighting as has been proposed by the pope.

London, Jan. 3.—(2:20 a. m.)—Pope Benedict telegraphed to Emperor William asking the latter's sanction to an exchange of war prisoners who are unfit for further service and the emperor replied, accepting the proposals, says the Amsterdam correspondent of Reuter's Telegram company. The correspondent quotes the telegrams exchanged between the Emperor and the Pope as received at German headquarters. The pope's message follows:

"Confirming the feelings of Christian charity with which Your Majesty is inspired, we beg your majesty to terminate this disaster year and begin the New Year with imperial generosity by accepting our proposals that an exchange of war prisoners not fit for military service may take place between the belligerent states."

"Pope Benedict XV."

Emperor William replied as follows:

"Thanks for your holiness' telegram. It is my heart's desire and I assure your holiness that the proposal to soften the lot of the war prisoners unfit for military service finds my full sympathy. The feelings of Christian charity which inspired this proposal corresponds thoroughly to my own conviction and desires."

CORONER WILL INVESTIGATE MATTOON WOMAN'S DEATH

Physicians Wife Dies Under Circumstances Which Force An Inquiry.

Mattoon, Ills., Jan. 2.—Governor G. M. Cook of Cook county, left tonight for Chicago with the stomach of Mrs. H. E. Ronalds, wife of a local physician, who died at her home last night under circumstances which have caused an investigation.

Dr. Ronalds is in the care of a deputy sheriff. Mr. and Mrs. C. C. Purcell are in the county jail pending the verdict of the coroner's jury. Mrs. Ronalds was found dying in her husband's office. Several bottles bearing poison labels were found near her. There were marks of violence on her face. Dr. Ronalds said she had taken poison but this was denied by three physicians who made a post mortem examination.

FIFTY MEN RIDE OUT STORM IN OPEN CUTTER

SURVIVORS FROM THE BATTLESHIP FORMIDABLE NOW TOTAL 201

Latest Survivors Land at Lime-Regis in Dorset Coast—All are in State of Exhaustion After Their Terrible Experience—Land Fighting is Unchanged.

London, Jan. 2.—(9:30 p. m.)—Another cutter from the British Battleship Formidable, which was sunk in the English channel yesterday, has reached Lime-Regis, Dorsetshire, with fifty men, bringing the total of saved up to 201 men.

When the cutter left the Formidable she had sixty or more men aboard but all but fifty succumbed to exposure, having been in an open boat for some twenty hours in a violent storm.

Albert Edward Cooper, master at arms, one of the survivors, landed at Lime-Regis says the explosion occurred between 1:30 and 2:30 o'clock in the morning. When he reached the deck the ship had begun to settle on the starboard side. Boats were launched and remained near the ship to pick up survivors but some of the boats, which stood off about twenty yards were swamped by the wreckage.

The men were all scantily clad and suffered terribly from cold during the twenty hours occupied in reaching shore. Some died during the day and were passed overboard.

Upon the arrival of the cutter at Lime-Regis at 11 o'clock last night, six more were found dead in the bottom of the boat. A policeman on duty heard cries for help and going to the beach, found the cutter with the men none of whom could land without assistance. Some of them were so exhausted that artificial respiration had to be resorted to.

A terrific southeast gale was blowing all the time and although the men took turns at the oars it was impossible for them to keep warm.

Land Fighting is Unchanged.

London, Jan. 2.—(9:55 p. m.)—Another fifty men from the Battleship Formidable, lost in the English channel Friday, have reached safely after riding out a fierce gale for upwards of twenty hours in an open cutter making a total of 201 survivors out of a crew of 780.

The latest survivors landed at Lime-Regis in the Dorset coast, late last night. All were in a state of exhaustion after their terrible experience. They declare that there is little hope of any further survivors, as the tremendous sea which was running at this time would make it impossible for men to live long enough to be picked up by passing vessels, while many of those clinging to the wreckage undoubtedly were killed when the second explosion occurred.

The admiralty has not issued any statement in reference to the cause of the disaster or where it occurred.

The land fighting which is sporadic in the west but more continued in the east, has brought about no material change in the situation. The artillery is playing the biggest part along the western front, although at points there has been close range fighting in which a few yards have been gained or lost.

The Germans deny the French report that they have been driven out of part of the village of Steinbach, upper Alsace, which has been the scene of very sanguinary fighting for a week past, the infantry finding cover behind the houses.

There have been engagements on the rivers Buzza and Baywa, in Poland, but seemingly the Germans are no nearer Warsaw than they were a week ago. They have commenced offensive operations in the direction of Kielce one of the larger towns of Southern Poland which doubtless has for its object the holding up of the Russian advance through Galicia on Cracow. Another attempt on the part of the Germans to advance from Mlawa to divert the Russian threat to flank their center by crossing the Lower Vistula, northwest of Warsaw, has been checked by the Russians.

According to Petrograd reports, the Russians continue to sweep the Austrians westward along the Southern Galician railway toward Grybow and Nieu Sandec and out of the Northern foothills of the Carpathians.

The Muscovites also are credited with having organized a new campaign against Hungary, advancing in four columns across the mountains.

This it is said, will not be like previous raids but will be a regular invasion.

Further east the Russians are marching across Bokowina not far north of the Rumanian frontier, toward Transylvania. It is considered likely Rumanian action will be hastened by this step.

On the Caucasian front where Field Marshal Von der Goltz is to take command, the Turks have assumed the offensive and crossed the Russian frontier at three points. Heavy fighting is now reported to be in progress.

By request of King George, tomorrow will be observed as a day of intercession and special prayers for the success of the allies' arms will be offered in every church and chapel of all creeds and religions in the kingdom.

Justice Without Cost.

It has been announced in Chicago
by Chief Justice Olson that a branch
of the municipal court is to be open-
ed there late in January wherein
people may plead their own cases.
The court will consider at first only
such cases as involve amounts less
than fifty dollars, but later on the
work may be broadened. The pur-
pose of the court, according to Judge
Olson, is to make litigation less ex-
pensive in minor matters. No law-
yers will be needed, but the com-
plainant in each case may state the
facts from his view point to the
court, and the defendant can do
likewise, and the judge will then
render a decision according to what
seems to him in the line of justice.

Buying on Credit.

Commenting on business con-
ditions recently a traveling salesman
said during the past few months his
sales had been up to the usual stan-
dard, notwithstanding the war and
other events which are commonly
declared to have interfered with
business. He stated, however, that
he had found a great many of his
customers hard pressed for cash be-
cause of the unusual number of re-
quests they had received for credit.
The salesman then went on to state
that in his opinion in both bad and
good times there are too many peo-
ple who contract easy habits about
the payment of bills. "It is not al-
ways the hard pressed workman who
dodges the bill collector most active-
ly, for many well-to-do people are
habitually slow in paying their bills.
There are such people who readily
make purchases with any expectation
of making payment for several
months, and then are offended if a
collector calls on them. There are,
of course, some applications for cre-
dit that are legitimate; people have
to take risks, start out on new ven-
tures with small capital, and seek
better positions, or industry would
stagnate. If fortune goes wrong,
creditors must wait a reasonable
time. But when people drawing
wages or salary bank on their
dreams they commonly come to fi-
nancial grief. Many people finding a
ten dollar bill in their pockets, feel
sanguine, step high, and send the
tradesmen's wagons hustling with
deliveries to their homes. The fact
that old accounts are due is forgot-
ten." And so this salesman said.
"The best New Year's resolution that
I know of to make and to keep is
to pay every debt when you possibly
can, even if you have to wear old
clothes to church."

Election Interest Grows.

The city campaign now seems to
be well under way. The Trades As-
sembly Friday announced that three
candidates are to be voted on by
members of the labor unions. Wil-
liam Newman and George P. Davis
have formally announced in this
morning's issue of the Journal that
they will seek nomination as com-
missioners. The ministerial associa-
tion will meet tomorrow and under
the general topic of civic betterment
will discuss the attitude of the min-
isters in the coming election. Officers
and members of the civic league are
said to have had a number of con-
ferences recently on the same sub-
ject and altogether the situation is
gathering interest.

And this interest is a mighty good
thing and augurs well for good gov-
ernment. When the people become
fully awake to the fact that the only
way to have good government is to
select the right kind of candidates
for office then the choice of honest
and efficient officials will be certain.
There will doubtless be numerous
aspirants for office, some of them
qualified to give efficient public ser-
vice, others unfit and inefficient. It
will therefore become the duty of
those voters who want efficiency to
honestly endeavor to put aside any
mere matter of personal preference
and to join with other voters in the
support of "the best candidates."

The coming election is not a wet
and dry fight. It is not an election
wherein one party is seeking suprema-
cy over another. It should be an
election without any factional or sec-
tional feeling, a vigorous, spirited
contest, made in a friendly way, with
only one end in view "the best in-
terests of Jacksonville."

trymen's Association will meet in

courses arranged for the city has
been selected by the management
of the brotherhood of Grace church,
the first attraction to be Jan. 16.
The last attraction will be home tal-
ent, the best in Jacksonville. The
entire course is to sell for one dol-
lar. The attractions and dates fol-
low.

pany.

pany.

The Spanish Company.

The Spanish company which is
to appear Jan. 16, is composed of
Helen Watson Powers, soprano;
Helen Desmond, pianist; M. Emile
Follmer, tenor; Senor Antonio Sala,
violinist. Each one of the four
quartet is an artist. The Freeman
of Waukesha, Wis., in speaking of
their concert says, "An audience
that was not only large but enthu-
siastic and a thoroughly arranged
program made an evening of real
triumph for the musicale. The
young Spaniard Senor Sala, violin-
cellist to the King of Spain, was
one of the most brilliant players to
visit the city. Emile Follmer, and
Helen Watson Powers, the one ten-
or and the other soprano, had
charming voices and sang in a
most artistic manner. Helen Des-
mond, pianist, showed fine under-
standing and remarkable execution.
She is a perfect accompanist with
quick and intelligent response.

The entire course promises to be
of a very high order and it will be
a rare opportunity to hear such ar-
tists at such a remarkable low price.

Lloyd W. Snerly, who went from
Jacksonville to Decatur two years
ago and purchased the G. A. Stadler
grocery store, has just purchased
the business of Fred Kipp, wholesale

ent store. The consideration is not
mentioned but the Kipp stock is one

business has been an excellently
paying one. Mr. Kipp started his
business in 1886 and bought the
First United Brethren property for
store purposes.

nounced tonight on Monday and arraigned before U. S. Commissioner Houghton. It was intimated that should Mr. Deiches consent to be examined sensational developments might follow. It was asserted that although Mr. Deiches was far the most important of the defendants there were others connected with the case in high position with whom the attorney is said to have been associated.

Late tonight Max Levi, father-in-law of Deiches was said that the New York lawyer was under only nominal arrest because the government was really after another man who had been associated with Deiches and who has disappeared. Mr. Levi said there is ample evidence to show that Deiches was not involved in the case.

He said that Deiches would spend the night at the Levi home here and go to New York tomorrow.

Is Prominent Attorney.

New York, Jan. 2.—Maurice Deiches, arrested in Philadelphia, is a prominent New York lawyer and an American citizen, although of German parentage. It was learned on authority tonight that his apprehension was considered by the government of far greater importance than that of any other of the defendants in the passport case. It was alleged that Deiches was active in advising reservists in connection with procuring the passports.

Photographs are Changed.

The passports were made out respectively, Sasche's to Howard Paul Wright, Muller's to Herbert S. Wilson, Meyer's to Peter Hansen and Wagner's to Stanley F. Martin. It was said that there was no doubt as to the authenticity of the seal of the state department on the photographs or as to Mr. Bryan's signature but how the photographs had been placed on the documents without creating suspicion that they were not likenesses of the persons to whom the passports were issued was not disclosed.

It was further alleged that Rurde in order to complete the deception, furnished reservists with engraved cards bearing names and occupations to correspond with the passports and even with fictitious typewritten correspondence addressed to them in their assumed names.

The department's agents had known for several days it was stated that the four Germans had obtained the passports but decided to make their case complete by waiting until they were aboard the ship before arresting them. It was suspected that other fraudulent passports might be found on other passengers aboard the Bergenstorf but although nine detectives searched every passenger on the ship holding the vessel in the harbor for more than two hours, none other was discovered.

All the defendants waived examination. Their case will go to the grand jury. In arraignment, Lieut. Sasche and the three private Assistant District Attorney Content told United States Commissioner Houghton that the government did not consider their alleged offense in any way criminal in its nature.

Inspired by Patriotic Motives.

"We realize," he said, "that these four defendants were inspired by the highest patriotic motives. They were going home to fight for their country. This is the tail-end of a conspiracy in which they are, unfortunately for them involved, and in the interests of justice they must be detained within the jurisdiction of the court."

This is the parole to which Lieut. Sasche, whose face was scarred as if from wounds received in the German student sport of duelling, signed his name.

"I sailed today from the Bush Terminal dock in Brooklyn on the Steamship Bergenstorf. I was arrested after the ship had passed out into the harbor. My rank in the German army is Lieutenant. I desire to be discharged on my own recognition and if this is done I give my word of honor as an officer and a gentleman that I will keep the United States district attorney for the Southern District of New York advised of my whereabouts and I will not leave the city of New York until the proceeding is terminated in which I have been arrested. I also agree on receipt of notice from said United States district attorney immediately to surrender myself and give bail in this proceeding."

District Attorney Marshall said tonight he wished to emphasize that the state department had recently established new and stringent regulations in the issuance of passports which it is believed cannot be evaded.

Has No Comment to Make.

Washington, Jan. 2.—Acting Secretary Lansing of the state department had no comment to make tonight on the arrest in New York of Germans accused of a conspiracy to use fraudulently American passports. He said he had been advised of the details of the case by the department of justice which had gathered the evidence. In other quarters it was said all belligerent governments would be advised of the action in these cases as a warning against violations by their subjects of American neutrality laws in the fraudulent use of American passports.

REVOLUTION QUELLED.

Buenos Aires, Jan. 2.—The government has received a report from its legation in Asuncion, capital of Paraguay stating that the revolutionary movement in Paraguay has been quelled, according to a statement made tonight. It is said that a few bands of revolutionists who had crossed into Argentina have been disarmed.

**BIENNIAL MESSAGE OF GOV.
DUNNE READY FOR WEDNESDAY**

Awaits Organization of the Two Houses When They Meet Wednesday—Many Recommendations are Made.

Springfield, Ill., Jan. 2.—The biennial message of Governor Dunne to the forty-ninth general assembly is ready and only awaits the organization of the two houses when they meet next Wednesday to be read.

The building of an eighty foot channel waterway, connecting Chicago and St. Louis and utilizing the Illinois and Desplaines rivers and the Illinois and Michigan canal, is one of the principal subjects dealt with by the governor. Next comes state regulation of fire insurance rates along the lines advocated in the recent report of State Superintendent of Insurance Rufus M. Potts.

No mention is made in the message of the initiative and referendum, a subject which found a prominent place in the governor's message of two years ago. This is taken care of in a recommendation that the state constitution be amended so as to permit more than one amendment at a time.

Other recommendations include: Senatorial and congressional apportionment.

Allowing Chicago to control public utilities within that city.

The construction of additional good roads.

Prison reform.

NICKNAME MAY SAVE**CHICAGO MAN'S LIFE.**

Chicago, Jan. 2.—A nickname may save James Franche who faces execution for the murder of Isaac Hengow in a South Side wine room last winter. Franche was referred to in the indictment and during the trial by the prosecuting attorney as "Duffy the Goat" and his counsel announced today this tended to degrade him in the minds of the jury and would form the foundation of an argument for a new trial. Franche's attorney contends the use of the alias was not necessary for identification and was inadmissible.

MISSOURI SPELLING BEE.

Macon, Mo., Jan. 2.—Macon county spellers are in the throes of excitement today, for there are gathered here the champion spellers of every school and town in the county, to compete in an old fashioned spelling bee. There will be no state contest this winter, so Macon boys and girls decided they would hold their own match. The main rivalry is between the boys and girls, for the former have studied up extra hard to overcome the girls who have been the usual winners in years past.

MINNESOTA DIVORCES INCREASE.

Minneapolis, Minn., Jan. 2.—One divorce to every seven marriages is the Minneapolis record for 1914. One to eight was the proportion of the previous year. A big gain in marriages failed to offset the grind of the divorce court, which separated 688 couples as against 522 in 1913. There were 4,465 weddings last year, and 4,243 the year before.

Most surprising of all are the June figures. During the month of brides, there were recorded 623 weddings and 136 divorces, or one divorce to every four marriages.

PROFESSORS FORM SOCIETY.

New York, Jan. 2.—A national organization of the professors of universities and colleges will be formed here today. The new organization will have a selected membership. The meeting will be held at Columbia University. The membership is to be limited to universities which have at least five professors, who have done something outside of their regular work to attract national attention. Considerable speculation precedes the meeting as to just how many universities can qualify, and whether bad feeling will result from the discrimination which is planned.

FIRST ATHLETIC HONOR**FOR ENLISTED TAILOR.**

Providence, R. I., Jan. 2.—Glendon Crandall of Providence has been chosen captain of the football team of the battleship Nebraska, and another navy tradition has been broken. He is the first enlisted man ever made captain of any athletic team in the navy. Crandall was the all-star choice for left halfback last season in the navy.

NATIONAL DEFENSE**HEARING TODAY**

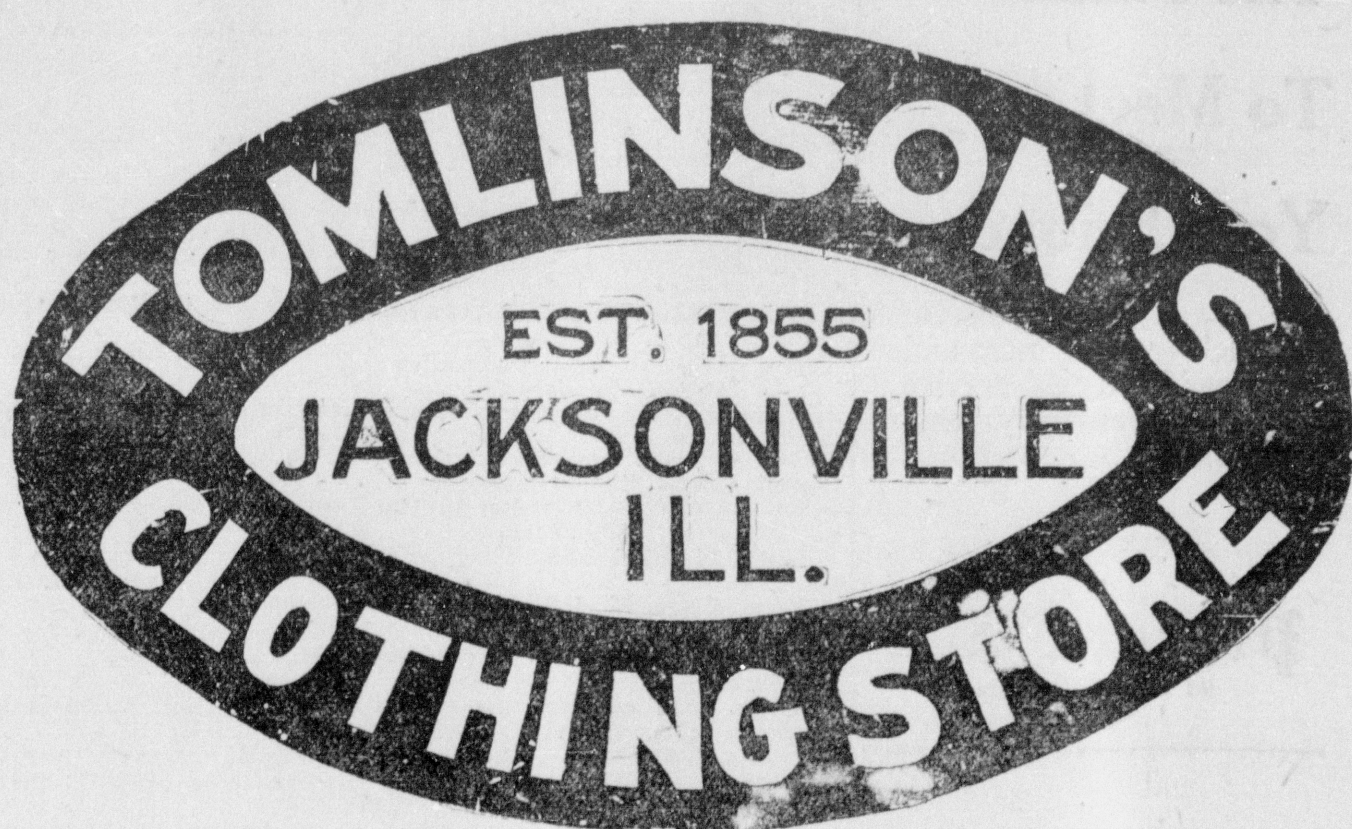

Washington, Jan. 2.—The hearing on national defense is set for today by the House Military Affairs Committee, and it is expected that Congressman A. P. Gardner of Massachusetts, who led the agitation for an investigation of our defenses, will be heard. It is said that Congressman Gardner, who has been shut off by the administration in his efforts to bring out a public investigation will make a final effort to arouse the committee to view the national defense question in his way.

KANSAS CITY PLANS**AERO MAIL ROUTE.**

Kansas City, Mo., Jan. 2.—To carry mails by aeroplane between the postoffice on the Kansas side and the union station here is the proposition that the government is considering. The postoffice department has made an examination of the topography of the route, and it is expected an appropriation will be made to tackle the aeroplane problem as an experiment, swooping across with the mail sacks in 6 minutes as compared with the present 45 minute route by street cars.

U. S. COURT RETURNS VERDICT IN KEYSTONE WATCH CO. CASE

Court Holds Company is Not a Combination in Violation of the Federal Anti-trust Law.

Philadelphia, Jan. 2.—The United States district court today decided that the Keystone Watch Case company is not a combination in violation of the federal anti-trust law but declared that its alleged policy of boycotting is a direct violation of the law and should be enjoined. The Keystone Watch Case company controls a large percentage of the filed watch case business of the country.

After it was organized the Keystone company absorbed several large watch case manufacturing concerns in various parts of the country and also took over the company which makes the Howard Watch.

The court in its decision declared there was nothing unlawful in the operation of the Keystone company and that it had not required plants by improper methods.

The court declared, however, that it found evidence that the company showed a "definite purpose to restrain trade by attempting to fix and maintain prices by using a species of boycott or blacklisting in order to lessen the trade of its rivals."

In 1910 the court said, the company issued a circular to its customers fixing certain prices of the several varieties of cases it manufactured and also of the Howard Watch, the making of which it controlled.

The company, according to the circulation, reserved the right to refuse to sell goods to jobbers if their rules regarding prices were violated.

The court declared that this circular "was not a request but a threat and not an empty threat, but a real menace from a strong manufacturer" and a "direct and unlawful restraint of trade."

With regard to the Howard Watch the court declared that owing to certain patent rights the Keystone company had the right to make an agreement with jobbers whereby a minimum price was fixed at which the jobber might sell, but it had no right to control the retailers' price.

SAVES HORSES WITH DOSES OF LINSEED OIL.

A well known farmer who handles a large number of horses each year states that he believes the so-called cornstalk disease is caused by a germ which is inhaled through the nostrils. He bases this conclusion on a number of cases that has come to his attention among his own stock. He finds that the animals go crazy, even the most gentle horses which have never been known to cut up but when attacked by this disease completely lose their head. He has found that when his horses have been affected by the disease that a dose of about a half pint of linseed oil given at different intervals of an hour have proven a cure if discovered in time, that is the first day of the disease. After that there is not much hope. Sometimes the animals have lived a week but would have to be shot to end their misery.

NEW PHYSICIAN AT CONCORD.

Dr. A. O. Magill, who recently came to Morgan county from Sullivan, Ill., was in the city Saturday. Dr. Magill will locate at Concord and comes to this community with a good reputation as both a physician and a citizen.

Henry Brune expected to leave Saturday evening for Peoria where he has a position.

GOOD ROADS BANQUET IS PLANNED FOR THE COMING MONTH

Governor Dunne is Expected for Principal Address—Five Hundred Attendance Mark is the Goal.

At a meeting held Saturday by the Morgan County Association of Road Commissioners and Clerks, several matters of importance were given consideration. The association decided upon the placing of five hundred Klaxon danger signals at various points in the county.

A committee was appointed to arrange for the annual banquet which will probably be given at some time in February. The primary object of the annual meeting is to create interest in good roads and the expectation is that Gov. Dunne will be the speaker. He has promised to come but is not certain as to the exact date which will suit his convenience, and for that reason it is not known definitely just when the meeting will be held.

The committee appointed includes Thomas Irlam, Herman Blummeister, Guy Bender, John Snyder and Charles Magill. The purpose of the placing of the danger signals along the county roads is as a matter of protection both for auto drivers and for the drivers of other vehicles. As soon as the spring days come the work of placing these signs will be undertaken and will occupy a comparatively short time, as commissioners from each district will be responsible for the work. There are a great many sharp turns in the roads in Morgan county, as there are in practically every other county in the state, where a warning sign will be of great benefit and the tendency of using such signals through the country will be to lessen the danger from collisions and other accidents.

When the annual meeting was held about a year ago it was accounted one of the most successful gatherings held in Morgan county for years. There were two hundred or more men at this banquet, and just before adjournment A. L. French made the proposition that for the banquet in 1915 the farmers would provide two hundred and fifty people if the citizens of Jacksonville would provide two hundred and fifty more. John J. Reeve, replying for the Chamber of Commerce, accepted the proposition, and so, following the meeting Saturday, the committee waited on Mr. Reeve and reminded him of the agreement entered upon last year. Mr. Reeve said that the matter would be brought to the early attention of the directors of the Chamber of Commerce, and that he could give the assurance that the directors and members of the association would enter heartily into the matter.

There can be no question but that a gathering of five hundred Morgan county citizens at a good roads meeting would result very beneficially for the roads of the county during the year. Such a meeting would tend to materially increase the interest in the general subject and every man who attended after his return to his own place of residence, would assist in spreading the enthusiasm for better roads.

IMPROVEMENT OF HIGHWAYS.

William W. Marr, New State Engineer, Gives His Views on Subject.

Illinois soon will reduce her road improvement problem to a simple science. This is the belief of William W. Marr, newly appointed state highway engineer of Springfield. Mr. Marr succeeds former Highway Engineer A. N. Johnson, after whose departure, P. J. McArdie was acting engineer.

Mr. Marr is optimistic regarding the coming spring outlook for road construction. Of the list of counties which have exercised their option to participate in the general good road fund, all but a few have sent in their proposed new road plans, and have had them approved by the state commission. This means that the work of actual construction will open up just as early in the spring as the weather will permit.

Engineer Marr foresees a great awakening in Illinois on the good road proposition.

"We have rich soil and unless improvement is carried on, bad roads," said Mr. Marr. "As soon as we learn intelligently what to do for bad roads and how to apply remedies, just that soon will we have solved the road problem. It used to be that, when a marsh was found in the road, many dollars were spent in money and labor in filling it ever so often, when the laying of a line of tile would have solved the difficulty, and at a small share of the expense actually suffered."

Mr. Marr will strive to carry out the advanced program of Illinois road improvement which the highway commission is promulgating, and in so doing, expects to make a material showing by the coming summer.

ALWAYS BUSY

I called on James Augustus Jinks, a carpenter of fame, to make a pair of kitchen sinks, and mend a quilting frame. "I cannot come right now," he said, "your little chores to do; I have so blamed much work ahead, the end is not in view. My time for weeks ahead is filled, I'm wanted everywhere; I have all sorts of shacks to build, and others to repair." A hundred workmen in the town are saying times are bad; they say they chase all chances down, and cannot earn a cent. And if perchance one gets a job, he works not with his might, but talks of how employers rob the poor man, left and right. If he is chopping down a tree, his strokes are soft and slow; he fears to make a noise lest he won't hear the whistle blow. He does as little as he can throughout his working day, but he's an energetic man when calling for his pay. I don't believe that any gent who works with might and main, intent on earning every cent, has reason to complain. The world will hunt him to his lair to hire his skill and vim; he doesn't seek work in despair, for work is seeking him.

LIST OF SCHOOL DISEASE PERILS

How to Fight Scarlet Fever, Diphtheria, Chickenpox and Like Ills, Is Told.

Along with the "seven wonders of the world, the seven ages of man" and the famous "seven sisters," the seven diseases which school children are most subjected to have now been listed by educators. The plagues and ways of combating them are given as follows:

Mumps—The child who has the mumps should stay out of school two weeks. Children in the home who have not had the mumps and who have been exposed, should stay out of school for ten days.

Scarlet fever—The child affected and all others exposed must stay out of school, the child affected for six weeks, or until scaling has ceased. The child exposed until quarantine is lifted.

Diphtheria—Children affected by the disease must stay out until a culture made from the throat shows that no germs are present. All children exposed must stay out for eight days.

Chicken pox—Only the child who has the disease and the children from the home who have not had it need stay out. The child with the disease must be excluded for three weeks or until scabs are dried up and peeled.

Whooping cough—Children with the disease and those in the home who have been exposed must be excluded, the child exposed for ten days, the child affected for eight weeks.

Measles—Both the children affected and those exposed, whether they have had the disease or not must be excluded until the quarantine is lifted. The child who has been exposed must stay out ten days, the child that is affected by the disease, three weeks.

Itch—Only the child who has the disease must stay out of school until it is cleared up.

Quarantine Cases.
In the case of the more dangerous disease for which quarantine is enforced, the schools shall depend upon the board of health in re-admitting children. Particularly, does this seem necessary in case of diphtheria where the presence of germs can only be detected by making a culture.

BELIEVE LIGHTED CIGARETTE WAS RESPONSIBLE FOR FIRE

Priest and His Housekeeper Die in Flames in Cleveland.

Cleveland, O., Jan. 2.—That a lighted cigarette dropped on a stairway may have been responsible for fire which brought death by suffocation to Rev. Stephen Makar, pastor of St. John's Greek Catholic church and burned to death his housekeeper, Mrs. Anna Pegio, early today was a theory advanced tonight by the police.

The blaze had its origin on the stairway leading to the second floor of the parish house, where both the pastor and his housekeeper were trapped.

Police Captain Murphy said he believed Rev. Makar had accidentally dropped a cigarette while going to his room. Until late today the police worked on the theory that the fire was of incendiary origin because of the fact that Father Makar had enemies who had threatened him and once had beaten him. The police said they learned the priest was an inveterate cigarette smoker.

PLAN FOR PROGRAM.

It is the intention to have a literary program and oyster supper in which the members of the Sunday school and the day school at Literberry will jointly take part, in the near future. Owing to the sickness that prevailed in the neighborhood during the holidays the celebration contemplated for that time was deferred and as conditions are becoming normal, it is the expectation to have the event in a short time.

HAD LEG AMPUTATED.

EXTEND HOOKWORM SURVEY.

Atlanta, Ga., Jan. 2.—Hookworm conditions in 70 counties of Georgia will be investigated between now and June. 65 counties have already been surveyed. For the work this year a large force will be engaged. Twelve field men will be put to work, several of which are experts from other states. The work so far shows the hookworm more prevalent in the south-

ern section of the state. But the north Georgia children show a higher infection with stomach worm than those in the south. The highest estimates of infection are shown in Laurens county, with 95 per cent. Ten Hill and Johnson counties show 91 per cent infection. Richmond county 66 per cent outside Augusta, and Bibb County 52 outside Macon.

TELLS OF BORDER FIGHTING

The following letter was recently received from "Jack" Devlin, by his parents, Mr. and Mrs. John Devlin of this city.

Naco, Ariz., Dec. 27, 1914.
Dear Father and Mother: I suppose you have thought of me by this time as being dead, on account of not writing to you sooner, but I am about the liveliest corpse you ever saw.

After sauntering around the city of Chicago last fall, I came to the conclusion of again entering the service of Uncle Sam, which is the best army service in the world, and straight way went to the recruiting office, there and then re-enlisting on the 26th of October in the infantry arm of the service un-assigned. I was sent to Jefferson Barracks, Mo., where I was assigned to the band, and wrote to Mr. Richard J. Dunne, chief musician of the 11th Infantry Band at Texas City, Texas. I got special assignment to his band, and arrived there on the 14th of November. I found a fine bunch of musicians composing the band, also met my dear old "pal", James Morrison, among them. He is fine and dandy, and playing trombone. The chief is a fine man, and a born musician.

Well, we were getting along fine until about a week ago when the Mexicans here in Naco got to fighting and shooting over into the American side and killing all kinds of people, so we got a hurry-up call one night to get ready to go, and the 6th brigade—the 11th, 18th and 22nd infantry, 5th and 6th Field Artillery, and 9th and 10th Cavalry, were marched to Naco, about between 5,000 and 6,000 soldiers altogether. The whole bunch camped just across the line, and our artillery is planted so that we can shell them right out of their trenches if they do not behave themselves. We have great fun watching them fighting and hearing the shots whizzing all around us, and every once in a while hearing a big shell burst. They fight all night in a pouring-down rain and use a great search light. It is fine excitement. I am glad to say I have seen real war, and may get a chance to go into it myself yet. "A long way from sweet old Tipperary."

We had an awful rain the first few days we were here, but it is fine now. All the boys in blue are well and healthy and judging from how they feel it would not be very healthy for the "Greasers" to "monkey" with them.

opposite them kept firing shells and shrapnel after them. You could see them with the naked eye "beating" it around the mountains.

Everything is quiet this morning, just a rifle shot is heard once in a while.

Well, I must close for this time, hoping to hear from you soon. With love to all I remain,

Your son,
Jack Devlin.

"BILLY" SUNDAY SINGER SETTLES PROMISE SUIT
Chicago, Jan. 2.—News reached Chicago from Pittsburgh that Homer A. Rodcheaver, former evangelist choir singer for "Billy" Sunday, has settled the \$50,000 breach of promise suit brought here by Miss Georgia Jay, for \$10,000. Miss Jay received a verdict in the Chicago courts for \$20,000 several months ago.

According to the story told by Miss Jay, she met the singer about two years ago when he was traveling with Sunday and earning \$100 a week. The acquaintance was said to have been formed in a small town in Iowa, where the girl was living at that time. About a year after meeting Rodcheaver, Miss Jay moved to Chicago. At the time the suit was filed she was living with her mother, Laura Tracy Jay, at 6407 Monroe avenue. According to her testimony Rodcheaver spent a large part of his time with her when he was in Chicago.

DR. GABLE SAYS

Stomach and Kidney Troubles, Rheumatism and Nervous Diseases Can be Relieved.

He will be at the Dunlap Hotel From 9 A. M. Tuesday, Jan. 5, Until 2 P. M., Wednesday, Jan. 6

If You Suffer I Want You to Try My New Treatment.

DR. EDWIN O. GABLE,
Neuropathic Specialist.

I have had the greatest success in giving relief to many cases of all manner of weakness and nervous disease of the heart, pain around the heart, shortness of breath, palpitation, irregular pulse, and fainting spells. I have had wonderful success in treating all curable forms of kidney troubles, backache, clogging up of the kidneys, irritation of the bladder, catarrh of the bladder, pain in the bladder, and all weakness connected with these organs. I have had the greatest success in treating rheumatism, both acute and chronic, cleansing the rheumatic poisons from the blood, creating new, healthy conditions so that they are completely relieved. I am doing these things every day with my new Neuropathic System of Treatment. Many people have come to me in your city; said that the other doctors had done them no good; they had about given up hope; and have been restored to health by me. I do not publish names of the patients that I cure; but I can give you private reference to as many people as you want to go and see of the wonderful results that I am getting with this system of treatment. I treat all curable chronic weakness and disease by my Neuropathic System of Treatment—treatment through the nerves, through the circulation, through the blood. It is especially adapted to those cases where there is a poison or deranged secretions or clogging up of any of the organs of the body. I say that most chronic diseases can be relieved if the disease has not gone so far as to destroy the tissues of the organ it has settled in. I want to prove these things. I do not ask you to take my word; but I ask you to come and try my treatment. Let me explain it to you. Let me show you how it acts, how it cleanses the system, how it builds up and restores strength, vitality and tone all over the body. I want you to know that I am devoting my life to this work, treating disease by this system of treatment. I want to help you, if you want to be strong and healthy. There is no reason why you should go around suffering or feel tired, weak and run down, or suffer with those headaches or backaches or have the fear that you are going to die from weakness of your heart or kidneys. This system of treatment purifies, cleanses, strengthens, invigorates, opens up the kidneys, causes elimination of the poisons, and makes you feel like a new person. I ask you to come and see me on my next visit to Jacksonville. Consultation is Free. I am doing this to introduce my treatment to people who have never tried it, to show them how much superior, how much more scientific this treatment is than the old systems of treatment. Send word to your friends of this trip. Remember the date and the hotel. Be sure and see me if you are suffering. It may save you many hours of suffering.

J. T. ROWLAND DIES AT HOME IN KANSAS CITY

Formerly Lived in Jacksonville and Was Well Known Here—Old Family Home on West College Avenue.

Word has been received in this city announcing the death of John T. Rowland which occurred recently in Kansas City, where Mr. Rowland was engaged for many years in handling live stock at the stock yards.

John Thomas Rowland was a son of A. C. and Elizabeth Rowland and was born 65 years ago in Newark, O., and came with his parents to this city in 1881, where he grew to manhood and was for a time a student at Illinois College, and of Crampton's business college, which occupied the third floor of the Chambers building on the north side of the square. He was an attendant at the old school Presbyterian church which stood at that time, on the lot now occupied by the Gillham undertaking parlors, and whose pastor was the much loved Rev. Robert W. Allen. Mr. Rowland in company with his brother, the late Oscar Vance Rowland, and Richard Elliott, in 1874 went west and opened a general store in Fort Scott, Kan. The sign "Rowland and Elliott" still remains where it was originally placed over the door 41 years ago, though all three members of the firm have passed away. John Rowland was for a time a clerk in the clothing store of J. H. Hackett and afterwards was employed in the drygoods and grocery store conducted by the late Messrs. Andrew and William Russell in the room where his father, A. C. Rowland and the late Samuel Markoe conducted in former years a dry goods store. The room is the same now occupied by C. S. Hillerby on the west side of the square.

John Rowland was a big-hearted fellow always jolly and cheerful and the life of the parties and socials that were so popular in those days gone by. Mr. Rowland, while engaged in the stock business a number of years ago, was knocked down by a steer in the cattle yards and when rescued it was discovered that the bones of his face had been crushed. He recovered but was disfigured for life. His death was due to a stroke of paralysis which he suffered some months since. His body was interred in one of the Kansas City cemeteries. The home of his parents in this city was at what is now the southwest corner of the intersection of West College avenue and Diamond street, though at that time the latter street had not been laid out. John Rowland was the last member of his immediate family. He is survived by his cousins, Miss Mattie Tapp and Homer Rowland, both of Jacksonville.

GIRLS! STOP WASHING THE HAIR WITH SOAP

Soap Dries Your Scalp, Causing Dandruff, Then Hair Falls Out.

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful. Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it. Adv.

No City That Makes Any Sort of Pretense to Civic Pride Can Afford to Be Without a Good Band.

But few persons not connected with a band have any idea of the expense incident to even ordinary upkeep of such an organization; they fail to realize that band instruments are costly and that new instruments must be purchased all too frequently, owing to accidental damage and natural wear; and if those persons stopped to consider they would recognize also the large expense necessary for uniforms, music, instruction, rent, etc.

How Does Jacksonville Stand on This Question

Shall Jacksonville continue to support its band and support it in such a manner that every citizen can point to it with justifiable pride?

The Jeffries Concert Band has been such an organization in Jacksonville for many, many years; but of late, for one reason or another; it has not seemed to meet with the support and encouragement that is due. Such a band is not primarily a money-making institution, but it must make sufficient funds at all times to keep it equipped and in proper training.

Sunday Afternoon Concerts at the Grand Opera House

Assuming that the people of Jacksonville are possessed of sufficient civic pride to cause them to view with alarm the possible disbanding of the Jeffries musical organization and that they will respond quickly and generously to any proposition looking to its continuation and maintenance, it has been arranged to give a series of Sunday afternoon concerts at the Grand Opera House. These concerts to be given by the Jeffries Concert Band will be of a very high order.

The First of the Series This Afternoon, 3 P. M.

Jacksonville always has been proud of its musical talent and justifiably so, but being merely proud is not going to keep a first-class band organization in a going condition; there are not enough occasions where a band can charge for its services to enable it to properly maintain itself. There are times when it must have other assistance. This is one of them. What is your answer?

RECORD-BREAKING DULLNESS
ATTENDS OPENING OF NEW YEAR

Undertone of Leading Stocks is
With General Declines—Only 23-
000 Shares are Traded In.

New York, Jan. 2.—Record-
breaking dullness attended the op-
ening of the New Year on the stock
exchange. In the course of today's
two hour session only 23,000 shares
were traded in, some of the promi-
nent issues failing to appear at all.
The undertone of leading stocks was
barely steady after opening with
general declines.

The only notable changes were in
some of the inactive specialties,
Sears-Roebuck gaining five points,
with a six point loss for New York
Aurubra, shares of several of the
automobile companies added to re-
cent gains while the Gould stocks
showed more firmness.
Completion of the details connect-
ed with the \$15,000,000 loan by lo-
cal banking interests to Argentina,
was included in the small budget of
general news and rumors of further
loans to establish credits at this
centre for some of the European
governments were revived.

Candidate for Commissioner

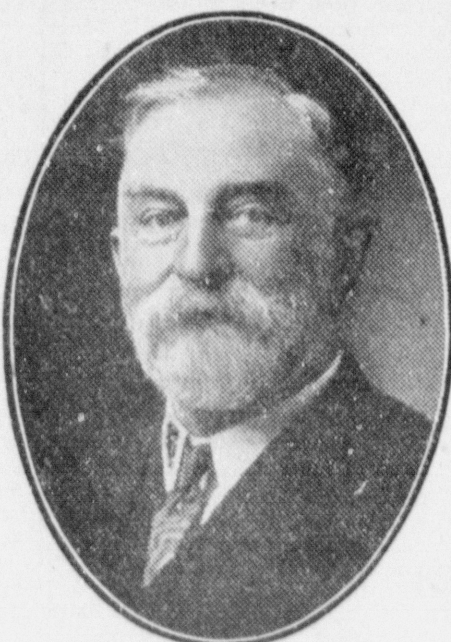

I have determined to be a candidate for re-election to the office of city commissioner and hereby announce that I will seek the nomination at the primary election to be held Tuesday, March 9th, 1915.

If honored by selection by a majority of the voters I hereby pledge to devote myself unreservedly to the interests of the city which I love and which has for many years been my home. I believe Jacksonville is the best and cleanest city in the state to live in and my thought as a commissioner will be to support those measures and policies which may mean even a better and a greater city. I believe in.

Strict law enforcement.
In further development of the city's light and water plants.
In clean streets.
In public improvements.
In efficient police and fire departments.
In economy and progress.

I will appreciate the support of every man or woman voter who casts a ballot for me and pledge if elected, so far as I am concerned "a square deal for everyone."

EUROPEAN WAR NOTES

Paris, Jan. 2.—(10:45 p. m.)—The following official communication was issued by the war office tonight:
"There are no notable occurrences to report other than a sustained cannonading against our trenches to the east of Verdun and in the region to the north of Chaulnes last night and a German attack to the west of the consensio wood (north of Verdun) which failed."

Berlin, via The Hague to London, Jan. 2.—(9:05 p. m.)—Instead of the customary New Year's reception the emperor yesterday received the commanding generals with whom he attended divine service. He then received the congratulations of the court at field headquarters. Addressing the correspondents, he said, among other things:
"I hope you will be able in the New Year to report many good things. We shall not lay down our arms until we have gained a complete victory."

Petrograd, Jan. 2.—Sergius Sazonov, Russian minister for foreign affairs, today had published an Orange Book which deals with the events preceding the Turkish attacks on Russian seaports in the Black Sea.

The Orange Book contains ninety-eight documents and is intended to throw light on what is termed in a summary of the contents issued through the Petrograd telegraph agency, "the clandestine and obstructive methods employed by Austro-German diplomacy in forcing the Turkish government reluctantly to war against the Triple Entente powers."

"The documents in the book," it is stated in the official summary, "gave evidence that the independence of the Ottoman empire was already imperiled with the German military mission was established in Constantinople. It vanished definitely from the moment the German cruisers Goeben and Breslau took refuge in the Dardanelles. The Young Turk cabinet, thinking, perhaps in good faith, to conduct the destiny of the country, displayed a cunningness thoroughly European, to escape embarrassment."

"They succeeded, however, only in delaying the rupture which was a part of the Teutonic program."
"As soon as the Austro-German diplomats became convinced that the Turks were hesitating as to what course to take, German hands laid German ships in a treacherous attack on the peaceful shores of an empire which was maintaining perfectly neighborly relations with the Turks."

Berlin, Jan. 2.—By wireless to Sayville, L. I.—Among the news items given out by the official press bureau today were the following:

"General Von Blume, a retired German army officer, discussing the military situation in the east, remarks that it is impossible as yet to estimate the scope of Field Marshal Von Hindenburg's successes but that it appears certain the Russian offensive has failed. Russia still has

plenty of men, he says, but she must be short of everything else needed for warfare.

"Despatch from Constantinople reports that Field Marshal Baron Von Der Goltz, the German army officer who re-organized the Turkish army, has left Constantinople for the Caucasian field of operations."

"The newspaper Bund of Berne, Switzerland, states that of all the belligerents, Germany and Great Britain are the only countries able to raise reserves and that the German reserves, of course, are better organized and better trained."

"Advices from Athens say that King Constantine has expressed the firm intention of maintaining the neutrality of Greece until the end of the war."

"Count Stephen Tisza, the Hungarian prime minister in a New Year's speech affirmed that mutual confidence, mutual love and respect existed between Austria-Hungary and Germany."

"Austro-Hungarian troops fight, he said, under German command and the Germans go into battle under Austro-Hungarian command."

"Count Tisza's recent visit to the German headquarters was not for the solution of any difficulties whatsoever, but was for a discussion of present measures as well as of future political problems arising from the war."

"French papers report that the mayor of Lyons, France, has ordered the lighting of all bridges and embankments to cease at nine p. m. as the appearance of Zeppelin dirigible balloons is feared."

London, Jan. 2.—(11:10 p. m.)—A Reuter despatch from The Hague says:

"It is authoritatively stated that The Netherlands minister at Berlin, supported by the Spanish minister and the American ambassador recently made representation to the German government concerning the requisitioning of food in Belgium. The German government immediately gave assurance that as long as the inhabitants of Belgium were supplied with food from elsewhere no requisitioning of food would take place."

Leeds, Eng., Jan. 2.—via London, (5:35 p. m.)—Lord Mayor Bedford has appealed to the American minister at the Hague, Henry VanDyke in behalf of Private William Lonsdale, an English soldier who has been sentenced to death in Germany by a superior court martial for attacking one of the guards at the prisoners' camp at Doberitz.

Lonsdale belongs in Leeds and the Lord Mayor, in a telegram to Minister Van Dyke said that the citizens here were much distressed as a result of the sentence and added:
"Can you use any means whatever to save his life?"

The lord mayor received a telegram tonight from Dr. Van Dyke, saying he was doing everything possible in behalf of Lonsdale and had sent a message to the American ambassador at Berlin, requesting him to take the matter up.

Petrograd, Jan. 2.—via London, (6:35 p. m.)—Ottoman troops are showing renewed activity in the Caucasus the Turks having crossed the Russian frontier at three points. On December 21st, two Turkish columns were directed toward Ardagan, 100 miles east of the frontier. One force went through Ardahan and the other marched from Olti Pass, 80 miles further to the south. A third column crossed the frontier at Zivin on the main road between Erzerum and Kars and took a village on the Upper Sarikamys. There position there is under constant artillery fire and both forces of the inquiry resort to bayonet charges.

The village is burning.
The Russian on December 27th, stopped the Turkish advance at the river Laurain, 18 miles to the southward, where fighting continued for possession of the village of Merdernek.

At the same time a battle was progressing close to and west of Ardagan between the Russian garrison and a Turkish column advancing from Ardahan.

On December 29th, these Turks occupied the village of Bogadate, eight miles southwest of Ardagan and the battle was continued the next day at a point between the village and the city itself.

WOMAN'S COLLEGE NOTES.

The library has again received a valuable gift from Dr. and Mrs. T. J. Pitner. A number of reference books are included in this, among them being a Funk and Wagnall's New Standard Dictionary.

The college will open for work next Tuesday, January 5th, first chapel service being held at nine o'clock. Following this the classes will come in their regular order.

Rev. E. B. Houck, Field Secretary, will leave for his regular work Monday, the 4th.

The midwinter cleaning has been successfully completed, the new vacuum system being employed largely in this work. This makes unnecessary the taking up of rugs or carpets, and gives much more satisfactory results than the former method of cleaning.

The Chemistry Department is just in receipt of a large consignment of chemicals and supplies for the coming months' work. Additional apparatus and equipment have also been received for the Biology and Physics laboratories.

FRANKLIN VISITORS.

John Strawn, George Woods, John Votmeier, A. Calhoun, Frank Yarns, J. G. Dowell were among the Franklin visitors in Jacksonville Saturday.

MANY JACKSONVILLE PEOPLE IN LINCOLN, NEB.

S. W. Nichols returned last evening at the close of his vacation much improved in health and ready for work. The latter part of the time he was the guest of his nephew, Prof. F. W. Sanford, instructor in Latin in the state university of Nebraska, at Lincoln, the capital of the state.

Lincoln is one of the newer cities of the west and contains some sixty or sixty-five thousand inhabitants and the whole state has but 1,200,000, much less than half the population of Chicago. Fifty years ago wild buffalo were roaming over the land on which the city is built and its founders profited by the experience of older places in many ways.

Some time since they tried prohibition for two years but voted wet again, with drastic restrictions. An elected excise board says where the saloons shall be and who shall own them and but 25 are permitted in the city. They pay a heavy license and are obliged to open not earlier than seven a. m. and to close promptly at eight p. m. When the law first went into effect two saloon keepers violated the closing ordinance and their licenses were at once revoked and not returned and since that time there have been few if any known offenders. A state law designates the opening and closing hours of saloons and it is generally obeyed with the exception of Omaha where it is openly violated.

Like many other western places Lincoln has profited by the advent of desirable residents from Jacksonville. F. W. (Doc) Brown is postmaster and has lived there twenty years. He is a brother of the late Hon. Wm. Brown and for a long time was chief proprietor of the F. W. Brown Lumber Company. He was also mayor of the city some years ago.

The visitor attended the exercises of the Knights Templar Christmas day and was pleased to meet there two sons of the late Rev. W. H. H. Moore, one of the pioneer Methodist ministers of this city. One of them was requested by the Eminent Commander to preside and he did so, with dignity and ability and the exercises throughout were interesting and deeply impressive.

George Wait, son of the late Selah Wait, instructor in the State School for the deaf at Jacksonville, is a real estate dealer and is doing a good business. His wife was formerly Miss Sawyer, also a teacher in the same school where he met her. He has been there a long time.

Mrs. Clarence S. Payne, formerly Miss Clara Sibley, is the wife of a gentleman prominent in literary and social circles. They have a delightful home in a pleasant part of the city.

W. A. Atwater is a valued salesman in a large store. Mr. and Mrs. Atwater's daughter and her husband went abroad very early in the year intending to remain twelve months but were obliged to return owing to the war. Unfortunately their trunks, containing many things of value, are still in Belgium.

Lee Schureman lives in the suburbs of the city and is well known and has a good standing in the community.

Mrs. H. W. Orr, wife of the physician in charge of the orthopedic hospital, is a daughter of Rev. Truman O. Douglas of Iowa and a member of the class of 1865 in Illinois college. The gentleman was in Jacksonville a few years ago and spoke in the Congregational church. He is a friend of Jas. B. Beekman of Pisgah.

Mrs. Ella Morrison, a sister of Mrs. Ensley Moore of Jacksonville, is a resident of this city and is much esteemed.

Mr. and Mrs. Will Kirby lived here a long time. Mr. Kirby being connected with the C. B. & Q. railroad. Finally Mr. Kirby sighed for the east and they removed to New Haven, Conn., where they now live. Mrs. Kirby was formerly Miss Saille Wood, sister of Mrs. Atwater.

Howe Howell is a prominent real estate dealer in the city and is well known in financial and social circles. His wife was formerly Miss Dovie Hollowhush of Jacksonville.

Fairview, the residence of H. H. Wm. J. Bryan is just east of the city. It is an imposing structure, standing on commanding eminence and surrounded by fine outbuildings. Now that his children are all married some think it probable that he will not soon, if ever, occupy the handsome residence again. It is certainly a fine structure and occupies one of the most desirable positions.

Prof. Sanford has a pleasant home. He is a valued member of the force of instructors in the state university.

A. C. Berry, formerly with F. J. Waddell & Co., is now head of a department in one of the largest stores in the city and makes frequent purchasing trips to Chicago, St. Louis and Omaha.

Mrs. Joseph McNabb, sister of Cyrus and Henry Sanderson, former residents of Lincoln, still resides here and is a valued member of society.

Frank M. Hall is a prominent attorney with an office in the First National Bank building. He was born and reared in the northeast part of Morgan county and well remembers many who were his friends and neighbors. He especially recalled playing when a boy with Barlow McIntyre whom he greatly esteemed.

J. F. Rehlander whose wife was Miss Elsie Tremblait, has a prominent position with a lumber company. Nebraska has a fairly good agricultural college and experimental farm of 220 acres quite near the city and the authorities now see the mistake made when the founders

CATTLE FEEDERS

Woods Improved Grain Softener

Pat. Applied for 100 bu. size.

The Woods Improved Grain Softener will add 100 per cent to the value of No. 2 corn for feeding cattle. It will add 50 per cent to feed for hogs and horses, and supplies the very feed to mix with silage for milk cows. If any one wishes these statements proven, I will furnish them a plant on six months trial, and if it proves my claims they help me sell my plants to their neighbors. If it fails I will refund all money paid to me for said plant. All plants are sold at \$8.00 per bu., cob measure, and guaranteed to do all I claim if used according to my directions.

We find by putting soda in the corn when cooking it helps make the corn more digestible enough to pay for the soda, and keeps the hogs in a healthy condition. We also make all the charcoal we need by closing the draft so it can not get air, when we have a bed of live coals.

Yours for producing more beef and pork.

IMMIGRATION BILL PASSED BY SENATE

(Continued From Page One.)

persons shall be exempt from the operation of the illiteracy test to wit:

"All aliens who shall prove to the satisfaction of the proper immigration officer or to the secretary of labor that they emigrated from the country of which they were last permanent residents for the purpose of escaping from religious persecution; all aliens who have been lawfully admitted to the United States and who have resided therein continuously for five years and who have in accordance with the law declared their intention of becoming citizens of the United States and who return to the United States within six months from the date of their departure therefrom, all aliens in transit through the United States, all aliens who have been lawfully admitted to the United States and who later shall go in transit from one part of the United States to another through foreign contiguous territory."

The head tax on immigrants is increased from \$4 to \$5. To the general exclusion classes are added the following: vagrants, persons afflicted with tuberculosis in any form or with any disability which renders them incapable of earning a livelihood; persons who teach or advocate the unlawful destruction of property; those who previously have been deported; stowaways, children under 16 years of age, unaccompanied or not coming to one or both parents; and persons not eligible for citizenship.

The bill provides as a pecuniary penalty against steamship companies, a lien on the vessels, the owners of which violate the proposed regulations.

Under the bill persons or corporations would be prohibited from importing contract labor or soliciting or inducing the importation of immigrants, except where skilled labor is needed.

An amendment submitted by Senator Cummins today and accepted provides that the departments of labor and commerce closely observe the industrial conditions of the country and notify congress whenever in their opinion, excepted immigration would materially increase the number of unemployed in the country or reduce the standard of wages to workmen. The bill outlines a system of supervision of immigrant ships and also provides for immigrant stations at interior points for the distribution of aliens. A provision of the house bill directing that American Medical inspectors should be placed on immigrant ships in foreign ports was stricken out in the senate after protests from foreign governments.

Washington, Jan. 2.—President Wilson does not plan to send to the senate the nominations of the members of the federal trade commission until after his return from his Indianapolis trip next Saturday.

Washington, Jan. 2.—Consul General Skinner at London, notified the state department today of the release of the oil tankers Tiflis and Narragansett and the freighter George R. Hawley, detained by the British while bearing American cargoes to neutral European countries.

Washington, Jan. 2.—Former President Taft today told the senate committee working on the administration bill for Philippine independence that the people of the islands, in his opinion would be unfitted for self-government for the next thirty years—probably for the next half century.

Democratic party promises of independence, he declared had been fruitful of unrest to which he attributed in a measure the recent revolutionary disturbances.

Neither Presidents McKinley, Roosevelt nor himself, he said, contemplated turning the Philippines over to the people before they were educated for self government. He quoted from President Wilson's writings that "self government is not a mere form of institution, but a form of character."

"We cannot present the Filipino people with a character," said the former president, "it must be acquired. You cannot make over a people in one generation. The time that will be necessary to train the

Filipino people for self government is the time that will be necessary to make them an English speaking people. If you give these people independence now, or by 1920 either a Diaz would arise in the Philippines or they would get into a condition that caused the fall of Diaz in Mexico."

Washington, Jan. 2.—President Wilson took counsel with several leaders of the senate today in an effort to hasten the administration's legislative program for the session. He is anxious that it shall be further advanced before he leaves next Thursday to speak at Indianapolis.

With Senator Stone, chairman of the foreign relations committee Mr. Wilson discussed the status of the Colombian and Nicaraguan treaties, both of which he hopes to see ratified at this session of congress. Senator Stone said later he would write immediately to former President Roosevelt asking him if he desired to be heard by the committee as to the Colombian treaty which provides for the payment of \$25,000,000 to Colombia for canal zone property. When the treaty was first drawn, Mr. Roosevelt protested against its ratification until he had been given an opportunity to discuss it before the committee. He was assured the opportunity would be provided.

The Nicaraguan treaty asking a inter-oceanic route and a naval base in Nicaragua by the United States, already has been reported by the committee.

Senator Stone said he would press for early action by the senate.

The president was assured by Senator Fletcher, in charge of administration merchant marine bill that the measure had a good chance of passing the senate. The senator suggested several amendments, however, one of them relating to the shortening of the term of the proposed issue of Panama Canal bonds to raise funds for the purchase or construction of ships.

President Wilson has found it impossible to grant the requests of Senators Stone and Lewis that he include St. Louis and Chicago in his next week's trip. He does not wish to be absent from Washington the additional length of time the visit to those cities would require.

posed that both Hill and Maytorena were ready to agree that the former would abandon Naco and move his forces to Agua Prieta while Maytorena was to transfer his men to Nogales. The state department received word today from its agents in Mexico City that convention had adjourned until Monday after a brief session yesterday when the question of how many delegates were to represent the Zapata army of the south was debated without result. General Robles, vice-president of that convention presided. The state department also was advised that H. G. C. Atwater, an American was stabbed to death at Tampico by a Mexican whose identity was unknown. The department has no clue to Atwater's home address or relatives.

Released by Mexicans.
Matamoros, Mex. Jan. 2.—George Davis and M. E. Burham, Americans and R. B. Holland, an Englishman arrested in Matamoros recently by the military authorities were released last night. They left for Galveston, Texas.

The men were charged with carrying letters to Tampico for enemies of the Carranza government, but an investigation acquitted them.

Detain American Steamship.
San Francisco, Jan. 2.—For two days the American Steamship San Juan, of the Pacific Mail service, was forcibly detained at Salina Cruz by General Arrieta of General Venustiano Carranza's forces and at one time she was threatened with destruction by dynamite.

Captain Stewart, who brought the San Juan in here today made this report to her owners.

On December 19th, General Arrieta demanded that the San Juan, then in Salina Cruz, transport sixty of his men and twenty officers, together with their horses, arms and ammunition, to Mazatlan.

Captain Stewart was willing to take the Mexicans as passengers but not as soldiers. This did not satisfy General Arrieta who refused to give the vessel clearance and threatened to dynamite it unless his wishes were met.

Captain Stewart remained resolute and the question finally was settled on his own terms. He accepted the soldiers unarmed, as passengers and landed them at Mazatlan December 25th.
